"MODULAR WALL & CEILING SYSTEM: DURABILITY, STYLE, AND PROTECTION"

The new modular system for indoor and outdoor wall and ceiling decoration features a robust core enveloped by a protective shield, offering unbeatable colors, textures, and exceptional resistance to staining and sunlight. It can be used in both internal and external settings and installed either horizontally or vertically, providing perfect symmetry and unique charm. The fluted-gap structure reduces reverberation, improving acoustics. This capped co-extruded composite features a premium shield that surrounds the core on all four sides, with no adhesives or harmful chemicals. Made from carefully selected recycled materials and dense hardwood fibers, it ensures strength and durability. The advanced shield provides ultra protection against stains, mold, cracks, and fading. The formula guarantees long-lasting chromatic stability with no need for painting, sanding, or varnishing over the years.

"Transform Your
Spaces with Timeless
Beauty, Durability,
and Effortless
Elegance."

- **UNIQUE INNOVATIVE TECHNOLOGIC SYSTEM**

It is a capped co-extruded composite, encased in a technologically advanced shield that covers the central core. The shield and the core are coextruded in order to avoid the use of glues or chemical substances that could damage the environment. Equally, the co extrusion process ensures extremely high standards of performance

- **SHIELD TOTAL PROTECTION**

100% polymeric external shield, which encapsulates the board in a protective waterproof film that is highly resistant to scratches, stains and fading over time.

- **ECO SUSTAINABLE MATERIAL**

It is instead of ultra shield is an eco-sustainable product. It is 95% composed of recycled materials, including recycled hardwood fibres that have no impact on deforestation.
